Overall Length:

0.786 inches

Overall Height:

0.305 inches

Overall Width:

0.363 inches

Body Length:

0.786 inches

Body Width:

0.265 inches

Body Height:

0.152 inches

Maximum Power Dissipation Rating:

1.0 watts

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 array, darlington transistor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
