Body Length:

Between 0.885 inches and 0.915 inches

Body Width:

Between 0.285 inches and 0.305 inches

Body Height:

0.185 inches

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

6610-01-147-8350

Features Provided:

Programmed and monolithic and hermetically sealed and w/open collector

Inclosure Configuration:

Dual-in-line

Criticality Code Justification:

Feat

Special Features:

Electrostatic discharge sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
