## NSN 5962-01-199-0715

Digital Microcircuit - Page 1 of 1

N/a

No Fiig: A458a0

**Unit Of Measure:** 

**Demilitarization:** 

View Online at https://aerobasegroup.com/nsn/5962-01-199-0715 **Body Length:** Between 1.695 inches and 1.735 inches **Body Width:** Between 0.940 inches and 0.980 inches **Body Height:** 0.185 inches **Operating Tempurature Range:** -0.0/+100.0 degrees celsius **Storage Tempurature Range:** -55.0/+125.0 degrees celsius **End Application:** Peacekeeper imu **Features Provided:** Hybrid and electrostatic sensitive and radiation hardened **Inclosure Configuration:** Flat pack **Criticality Code Justification:** Feat **Special Features:** Electrostatic discharge sensitive and nuclear hardness critical item Shelf Life:
