NSN 5962-01-203-3570

Memory Microcircuit - Page 1 of 1

Fiig: A458a0

View Online at https://aerobasegroup.com/nsn/5962-01-203-3570

Features Provided:
Bipolar and hermetically sealed and programmed and schottky and 3-state output
Output Logic Form:
Transistor-transistor logic
Memory Device Type:
Rom
Special Features:
Hazardous material, beryllium or beryllium compounds.
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
