Body Length:

Between 1.745 inches and 1.755 inches

Body Width:

Between 0.995 inches and 1.005 inches

Body Height:

0.205 inches

Features Provided:

Electrostatic sensitive

Inclosure Configuration:

Flat pack

Criticality Code Justification:

Feat

Design Function And Quantity:

2 encoder

Special Features:

Source control drawing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
