| Operating Tempurature Range:                                         |
|----------------------------------------------------------------------|
| -55.0 to 125.0 degrees celsius                                       |
| Storage Tempurature Range:                                           |
| -65.0 to 150.0 degrees celsius                                       |
| Features Provided:                                                   |
| Monolithic and electrostatic sensitive and radiation hardened        |
| Inclosure Configuration:                                             |
| Dual-in-line                                                         |
| Criticality Code Justification:                                      |
| Feat                                                                 |
| Case Outline Source And Designator:                                  |
| D-6 mil-m-38510                                                      |
| Special Features:                                                    |
| Electrostatic discharge sensitive and nuclear hardness critical item |
| Shelf Life:                                                          |
| N/a                                                                  |
| Unit Of Measure:                                                     |
|                                                                      |
| Demilitarization:                                                    |
| No                                                                   |
| Fiig:                                                                |
| A458a0                                                               |
|                                                                      |
|                                                                      |
