

View Online at <https://aerobasegroup.com/nsn/5962-01-235-6052>

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Features Provided:

Hermetically sealed and monolithic and programmable

Inclosure Material:

Ceramic

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Transistor-transistor logic

Input Circuit Pattern:

10 input

Special Features:

H timing b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
