Body Length:

1.070 inches

Body Width:

0.250 inches

Body Height:

0.200 inches

Features Provided:

3-state output and high speed and high current

Inclosure Material:

Plastic

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Design Function And Quantity:

8 transceiver

Special Features:

Special processing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
