Features Provided:

Fast settling and electrostatic sensitive

Inclosure Configuration:

Can

Criticality Code Justification:

Feat

Design Function And Quantity:

1 amplifier, wideband

Case Outline Source And Designator:

A-1 mil-m-38510

Terminal Surface Treatment:

Tin or solder

Special Features:

Electrostatic discharge sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
