Body Outside Diameter:

0.800 inches

Body Height:

Between 0.148 inches and 0.181 inches

Operating Tempurature Range:

-55.0/+125.0 degrees celsius

Storage Tempurature Range:

-65.0/+150.0 degrees celsius

Inclosure Material:

Metal

Inclosure Configuration:

Can

Design Function And Quantity:

1 amplifier, buffer

Case Outline Source And Designator:

T0-8 joint electron device engineering council

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
