Body Length:

1.200 inches

Body Width:

0.360 inches

Body Height:

Between 0.145 inches and 0.165 inches

Operating Temperature Range:

+0.0/+70.0 degrees celsius

Features Provided:

Burn in

Inclosure Material:

Plastic

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 shift register, serial/parallel in, serial out

Terminal Surface Treatment:

Solder

Terminal Type And Quantity:

24 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
