Body Length:

0.170 inches

Body Outside Diameter:

0.352 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Features Provided:

Bipolar

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 amplifier, operational, general purpose

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
