

View Online at <https://aerobasegroup.com/nsn/5962-01-264-5206>

Operating Temperature Range:

+0.0/+70.0 degrees celsius

Features Provided:

Hermetically sealed

Output Logic Form:

Transistor-transistor logic

Input Circuit Pattern:

8 input

Special Features:

Provides non-inverting data output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
