Body Length:

1.490 inches

Body Width:

0.625 inches

Body Height:

0.225 inches

Storage Temperature Range:

-65.0/+150.0 degrees celsius

Inclosure Configuration:

Dual-in-line

Input Circuit Pattern:

16 channel

Criticality Code Justification:

Feat

Design Function And Quantity:

1 multiplexer, analog

Special Features:

Electrostatic discharge sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
