Body Width:

Between 0.220 inches and 0.280 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

Universal exciter ea-6b

Features Provided:

Hermetically sealed and burn in

Inclosure Material:

Ceramic

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

4 gate, analog

Terminal Surface Treatment:

Solder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
