Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

Printed wiring board assembly, transmitter

Features Provided:

Hermetically sealed and programmable and w/clock and burn in

Inclosure Material:

Ceramic

Case Outline Source And Designator:

D-8 mil-m-38510

Special Features:

Transmitter timing generator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
