

View Online at <https://aerobasegroup.com/nsn/5962-01-308-2243>

Operating Temperature Range:

-40.0/+85.0 degrees celsius

Features Provided:

W/ripple carry and asynchronous

Inclosure Material:

Silicon

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Design Function And Quantity:

1 counter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
