Body Length:

1.275 inches

Body Width:

0.775 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

Receiver, sonar signal

Features Provided:

Burn in, mil-std-883, class b and hybrid and gain controlled and w/filter

Design Function And Quantity:

1 conditioner, signal

Special Features:

With limitier and controlled gain amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
