Body Length:
1.420 inches
Body Width:
0.610 inches
Body Height:
0.175 inches
Operating Tempurature Range:
-55.0/+125.0 degrees celsius
Features Provided:
Burn in and static operation
Inclosure Configuration:
Dual-in-line
Output Logic Form:
Complementary-metal oxide-semiconductor logic
Precious Material And Location:
Contact finish gold
Precious Material:
Gold
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A458a0
