Operating Temperature Range:

-40.0/+85.0 degrees celsius

Features Provided:

Asynchronous and parallel operation and w/reset

Inclosure Material:

Plastic

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Supplementary Features:

Cognizant servicedutch navy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
