Operating Temperature Range:

-55.0/+125.0 degrees celsius

Features Provided:

Burn in, mil-std-883, class b and monolithic and temperature compensated

Inclosure Material:

Ceramic

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 converter, dc

Terminal Surface Treatment:

Solder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
