Operating Temperature Range:

-55.0/+125.0 degrees celsius

Inclosure Material:

Ceramic

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Input Circuit Pattern:

Dual 14 channel

Design Function And Quantity:

1 sequencer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
