## NSN 5962-01-342-1821

Memory Microcircuit - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5962-01-342-1821

| End Application:                                                    |
|---------------------------------------------------------------------|
| Milstar                                                             |
| Features Provided:                                                  |
| Electrostatic sensitive and programmed and radiation hardened       |
| Inclosure Configuration:                                            |
| Dual-in-line                                                        |
| Criticality Code Justification:                                     |
| Featg and cbbl and nhcf                                             |
| Product Name:                                                       |
| Microcircuit, programmed pal (lsg)                                  |
| Memory Device Type:                                                 |
| Pal                                                                 |
| Special Features:                                                   |
| Altered item programmed using 95105 p/n rc205-0252-010; esd and hci |
| Nuclear Hardness Critical Feature:                                  |
| Hardened                                                            |
| Terminal Type And Quantity:                                         |
| 24 printed circuit                                                  |
| Shelf Life:                                                         |
| N/a                                                                 |
| Unit Of Measure:                                                    |
|                                                                     |
| Demilitarization:                                                   |
| Yes - demil/mli                                                     |
| Fiig:                                                               |
| A458a0                                                              |
|                                                                     |
|                                                                     |
|                                                                     |
