End Application:

Milstar

Features Provided:

Hermetically sealed and radiation hardened and low power and asynchronous

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Criticality Code Justification:

Feat

Design Function And Quantity:

1 register

Product Name:

Mckt-82c12-octal reg--raft (3.0v)

Special Features:

Esd; hci

Terminal Type And Quantity:

24 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
