**End Application:**

Milstar

**Features Provided:**

Hermetically sealed and radiation hardened and low power and asynchronous

**Output Logic Form:**

Complementary-metal oxide-semiconductor logic

**Criticality Code Justification:**

Feat

**Design Function And Quantity:**

1 register

**Product Name:**

Mckt-82c12-octal reg--raft (3.0v)

**Special Features:**

Esd; hci

**Terminal Type And Quantity:**

24 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A458a0
