Body Length:

1.573 inches

Body Width:

1.050 inches

Body Height:

Between 0.280 inches and 0.310 inches

Operating Temperature Range:

-55.0/+150.0 degrees celsius

Features Provided:

Hermetically sealed

Inclosure Material:

Metal

Inclosure Configuration:

Can

Design Function And Quantity:

1 regulator, voltage

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
