Features Provided:

High speed and 3-state output and tested to mil-std-883

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Design Function And Quantity:

8 transceiver

Case Outline Source And Designator:

D-9 mil-m-38510

Terminal Type And Quantity:

24 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
