Body Length:

1.400 inches

Body Width:

0.270 inches

End Application:

4935-01-262-0017 test set, guided

Features Provided:

Programmed and monolithic and burn in

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Transistor-transistor logic

Product Name:

Programmed controller

Memory Device Type:

Pal

Terminal Type And Quantity:

28 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
