Operating Temperature Range:

-55.0/+125.0 degrees celsius

Features Provided:

3-state output

Inclosure Material:

Ceramic

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 driver, line and 1 buffer

Terminal Type And Quantity:

20 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
