**End Application:**

B-1b acft

**Features Provided:**

Compatible cmos and programmed

**Output Logic Form:**

Complementary-metal oxide-semiconductor logic

**Criticality Code Justification:**

Feat

**Memory Device Type:**

Programmed

**Special Features:**

Hcp; altered item programmed from 89305/033917 using program 89305/0200018-3-0311

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
