End Application:

B-1b acft

Features Provided:

Compatible cmos and programmed

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Criticality Code Justification:

Feat

Memory Device Type:

Programmed

Special Features:

Hcp; altered item programmed from 89305/033917 using program 89305/0200018-3-0311

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
