Operating Temperature Range:

-55.0/+125.0 degrees celsius

Features Provided:

Hermetically sealed and w/current limiter

Inclosure Material:

Metal

Inclosure Configuration:

Can

Design Function And Quantity:

1 regulator, voltage

Terminal Type And Quantity:

3 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
