**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Features Provided:**

W/schmitt trigger and burn in, mil-std-883, class b

**Inclosure Configuration:**

Dual-in-line

**Output Logic Form:**

Transistor-transistor logic

**Design Function And Quantity:**

4 gate, nand

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
