**Operating Temperature Range:**

-0.0/+100.0 degrees celsius

**End Application:**

Peacekeeper imu

**Inclosure Configuration:**

Single-in-line

**Criticality Code Justification:**

Feat

**Design Function And Quantity:**

1 multiplexer and 1 driver, logic level

**Special Features:**

Hci, esd

**Terminal Type And Quantity:**

27 printed circuit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
