End Application:

C-12231/ugc-1 e/i fscm 07342

Features Provided:

Programmed

Output Logic Form:

Complementary-logic and hi-performance mos

Product Name:

Prom control drawing input output controller bit firmware installed in u66 787525-2

Memory Device Type:

Eprom

Special Test Features:

Programmed per software "650222-1 rev q1"

Specification Data:

07342-889339 manufacturers specification control

Specification Or Standard:

1 number

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
