Operating Temperature Range:

-55.0/+125.0 degrees celsius

Features Provided:

Low power and w/current limiter

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

2 receiver, interface and 2 transmitter

Terminal Type And Quantity:

16 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
