**Operating Temperature Range:**

-40.0/+85.0 degrees celsius

**Inclosure Material:**

Ceramic

**Inclosure Configuration:**

Dual-in-line

**Design Function And Quantity:**

1 amplifier, operational, ac

**Product Name:**

Operational amplifier general purpose

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
