## NSN 5962-01-376-0013

Linear Microcircuit - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5962-01-376-0013

| Body Length:                                    |
|---|
| Between 30.23 millimeters and 30.73 millimeters |
| Body Width:                                     |
| 15.24 millimeters                               |
| Body Height:                                    |
| Between 3.56 millimeters and 4.70 millimeters   |
| Inclosure Material:                             |
| Ceramic   |
| Inclosure Configuration:                        |
| Dual-in-line                                    |
| Design Function And Quantity:                   |
| 1 amplifier, buffer                             |
| Voltage Rating And Type Per Characteristic:     |
| 10.0 volts input                                |
| Terminal Type And Quantity:                     |
| 24 pin  |
| Shelf Life:                                     |
| N/a   |
| Unit Of Measure:                                |
|   |
| Demilitarization:                               |
| Yes - demil/mli                                 |
| Fiig:   |
| A458a0  |
|   |
