End Application:

Ari5984 test equipment (a1 24 radar), national semiconductor corp

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Complementary-metal oxide-semiconductor logic

Design Function And Quantity:

1 translator, level and 1 translator, logic

Terminal Type And Quantity:

16 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
