Operating Temperature Range:

+0.0/+70.0 degrees celsius

Features Provided:

Programmable and unipolar and bipolar and w/sample and hold

Inclosure Configuration:

Dual-in-line

Special Features:

Data acquisition sys

Terminal Type And Quantity:

20 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
