End Application:

Air conditioner ftd-100, trans world communication inc

Output Logic Form:

N-type metal oxide-semiconductor logic

Design Function And Quantity:

1 microprocessor

Special Features:

Scn2661bc1n28

Terminal Type And Quantity:

28 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
