Operating Temperature Range:

-4.5/+5.5 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

Inclosure Material:

Silicon

Inclosure Configuration:

Flat pack

Output Logic Form:

Transistor-transistor logic

Design Function And Quantity:

4 counter

Terminal Type And Quantity:

16 flat leads

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0

Mil-std (military Standard):

Mil-m-38510 spec.
