Body Length:

Between 0.995 inches and 1.005 inches

Body Width:

Between 0.995 inches and 1.005 inches

Body Height:

0.380 inches

End Application:

Apg-70 radar asc p/n317303

Inclosure Configuration:

Flat pack

Criticality Code Justification:

Feat

Design Function And Quantity:

1 oscillator, voltage controlled

Special Features:

Source control drawing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
