Operating Temperature Range:

-40.0/+85.0 degrees celsius

Features Provided:

Low noise and laser trimmed and low drift and high gain and monolithic

Design Function And Quantity:

1 amplifier, operational, general purpose

Product Name:

Ultra low noise precision operational amplifier

Terminal Type And Quantity:

8 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
