Operating Temperature Range:

-40.0/+125.0 degrees celsius

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

6 inverter, level shifting

Special Features:

Plastic soic case.

Terminal Type And Quantity:

16 gullwing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
