Operating Temperature Range:

-55.0/+125.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

Apn232, rdr transmitter

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Microcircuit die, voltage regulator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
