Operating Temperature Range:

-55.0/+125.0 degrees celsius

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Design Function And Quantity:

1 amplifier, linear

Special Features:

Similar to m38510/11402bgx cage 81349

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
