Body Length:

1.390 inches

Body Width:

0.125 inches

Body Height:

0.745 inches

Maximum Power Dissipation Rating:

2.5 watts

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

F-16

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Microcircuit, linear, 14-bit digital to analog converter, hybrid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
