Operating Temperature Range:

-55.0/+85.0 degrees celsius

Storage Temperature Range:

-65.0/+100.0 degrees celsius

End Application:

E-3 esm prod grp b

Features Provided:

Electrostatic sensitive

Inclosure Configuration:

Flat pack

Criticality Code Justification:

Cbbl

Design Function And Quantity:

1 divider, power

Product Name:

Power divider, two way, flat pack 10 to 2000 mhz

Terminal Type And Quantity:

8 flat leads

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
