Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

Storage unit

Inclosure Configuration:

Can

Criticality Code Justification:

Feat

Product Name:

2.5 voltage reference

Special Features:

Glassivation thickness is 4000 angstroms

Terminal Type And Quantity:

3 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
